## kiss of life

**Estee Lauder's** new Pure Colour High Gloss, \$45, nourishes your pout while making it look lush, bright, and oh-so-glossy. It's long-wearing and non-sticky, too.

## NOT FADE AWAY

Pureology takes on the challenge of caring for blonde-coloured hair with the Perfect 4 Platinum range, from \$36. It includes shampoo, conditioner, a repair mask, and a "filler" spray that creates fuller hair. It is said to slow fade, strengthen weakened hair, and protect bleach-damaged locks, leaving tresses nourished, shiny, and smooth.

## here's the rub

**Facial Radiance** is an all-natural beauty treat that's a terrific alternative to product-heavy treatments. Practitioners use no products other than an essential oil – and clients receive an indulgent and gentle face, head, and shoulder massage. Afterwards, your skin is left genuinely radiant and perky. See [facialradiance.co.nz](http://facialradiance.co.nz) for nearby practitioners.

## skin quencher

**Clinique's** Moisture Surge has been nourishing skin since 1988. Now, there's Moisture Surge Intense, \$89, for seriously thirsty skin. It both moisturises and protects.

## going batty

Give some extra va-va-vamp to your lash-batting with a pair of **QVS** Natural Lashes Feather Effects falsies, \$14.99.

## where there's smoke...

Dynamic singer/songwriter **Beth Ditto** is the inspiration behind **MAC's** latest collection. It's all about the dark smoky eyes, lavish lashes, and vibrant splashes of poppy colour. It's fun, theatrical, and maybe just a teeny bit scary.

## parisian pizzazz

Guerlain's Pucci Collection combines the Parisian luxury of **Guerlain** cosmetics with the print pizzazz of **Emilio Pucci**. The collection includes Terra Azzura Bronzing Powder & Blush, \$172, and the Meteorites Perlex D'Azur powder pearls, \$144.
